### **DETAILED ACTION**

1. This application is in condition for allowance except for the following formal matters:

#### ***Drawings***

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference sign(s) not mentioned in the description: In figure 1, reference characters 40, 42, 22a, 22b, 26a, 26b and 24 are not found in the specification. Reference character 604 is not found in the specification either. A proposed drawing correction, corrected drawings, or amendment to the specification to add the reference sign(s) in the description, are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

3. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "601" has been used to designate both air knife and the chamber body. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

#### ***Specification***

4. The disclosure is objected to because of the following informalities: On page 18, line 17, "patters" should be --patterns--.

Appropriate correction is required.

#### ***Allowable Subject Matter***

5. Claims 1-18 are allowed.

Art Unit: 1744

6. The following is an examiner's statement of reasons for allowance: With respect to claim 1, the prior art does not disclose nor render obvious the claimed combination of at least one processing enclosure having a particle removal assembly positioned therein, the particle removal assembly comprising: a substrate support member; a broadband actuator in communication with the substrate support member; and an air knife assembly positioned proximate the substrate support member, the air knife assembly being configured to generate a high pressure laminar flow of gas across the surface of the substrate; a substrate transfer enclosure in communication with each of the at least one processing enclosures; at least one substrate supply source in communication with the substrate transfer chamber; and at least one transfer robot positioned in the substrate transfer enclosure, the transfer robot being configured to transfer substrates between the at least one substrate supply source and the at least one processing enclosure. These elements, in combination define over the prior art. With respect to claim 9, the prior art does not disclose nor render obvious the claimed combination of a processing system for cleaning contaminant particles from a substrate a factory interface enclosure; at least one substrate pod loader attached to the factory interface enclosure; at least one substrate transfer robot positioned in the factory interface enclosure; and at least one substrate cleaning assembly positioned to receive substrates from the at least one substrate transfer robot, wherein the at least one substrate cleaning assembly comprises: a substrate support member; a broadband actuation device in communication with the substrate support member; and a particle removal device configured to sweep away dislodged particles from an area proximate the substrate surface. These elements, in combination define over the prior art.

*Conclusion*

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Jysky et al., Shortes et al., Iwatsu et al., Dyer, Wada et al., Kimura et al., and Kim show the current state of the art.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
